This is a NUBUS adaptor card for PowerMacintosh 6100 machines, i have had it sitting around for years, and no longer have either machine, as such, it is as is...
i can NOT 100% confirm this is for the 6100 series, but it is a NUBUS adaptor for the flat 610/6100 style Apple machines, and I know it is not for the Q610/C610 (i have one of those, and it has a different connector to the mainboard), but is possible it is for the Quadra 660av / Centris 660av
